

Galleon Studios

A space as big as your imagination

Brochure & Rates

The North's premier,
fully equipped studios
exclusively for film,TV,
Video & live streaming.

The Infinity Cove

Our largest studio has a curved L-shaped cove. This green screen space is perfect for virtual events/sets, animations and chromakey productions. The cove can be painted any colour at the flick of a brush and with drive in access its spacious enough for large crews, sets and cars/motorcycles. It's a firm favourite for commercials, dramas, music videos, e commerce, events and productions involving multiple subjects/talent.

"An excellent studio space packed with great facilities. They pull out all the stops to make the shoot successful."

Nigel Bradley, DOP

The Soundproof Studio

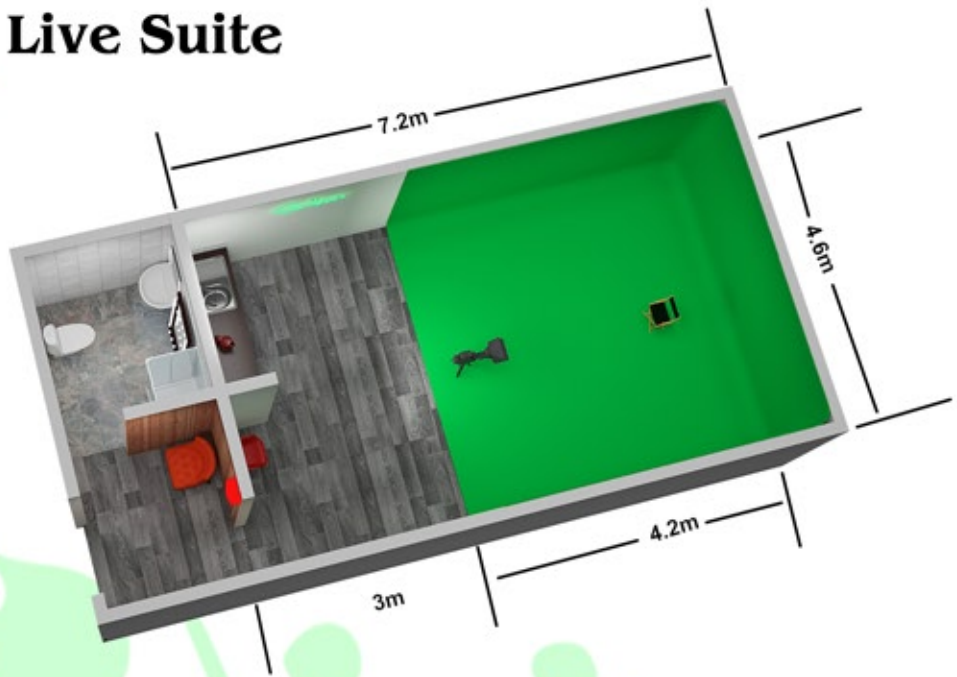

was designed and built as the only fully soundproof studio in the North West. Roomy enough for sets and with various backdrop options, This cushioned, quiet space is ideal for filming anything where clean sound is key such as pieces to camera, interrotron and talking head interviews, live stream events, voice overs and product promos.

The Live Suite

Our brand spanking new Live Suite is our second soundproof space. This self-contained studio has a green screen cove and is equipped with its own kitchen and toilet/shower facilities. The Live Suite is the ideal location for talking heads, live streaming, podcasts and virtual events.

The Live Suite

Infinity Cove & Soundproof Studio

"The studio is the perfect size"
Angela Russell, Producer, BBC
