

Brooklands Studio is a state-of-the-art production facility, renowned for its flexible space, advanced technology capabilities, and versatile design options, making it an ideal choice for a wide range of creative projects and events.

Our team

Our management, technical and creative departments will help you to craft the best solution for your vision, audience and budget.

With full studio production facility, broadcast and streaming capabilities all built in-house we can deliver your concept live to your audience immediately.

The space

Nestled in the heart of the historic Brooklands circuit, the studio is a beacon of innovation and creativity offering state-of-the-art production and rehearsal facilities. The studio spaces are fully flexible, secure and private, bringing you complete control over your production and a world class technical delivery.

We offer two state-of-the-art spaces designed to support, connect and elevate your production. Whether you're in the film, television, music, or digital content industry, our facilities are engineered with the latest technology to ensure your creative vision comes to life.

Pre Vis Room

Our Previsualisation Room offers comprehensive lighting and video previsualisation capabilities, employing the latest technologies to bring your creative visions to life.

Audio room technologies

The audio mix room provides a comfortable environment, seamlessly integrated with the main studio through top-tier infrastructure.

The studio

Large production space approx. 16m x 14m, a height of 7.2m with full rigging capabilities.

Easy access via a 4.5-meter wide shutter (vehicle access available).

Large range of AV and technical equipment to support any production within the studio space.

- Standard black box setup.
- Option to provide a cyc for a white or chromakey infinity backdrop.

High speed fibre internet is available throughout the building. Our streaming service allows for multi-platform solutions with fully redundant backup.

Flexible power onsite including 63/3a + 2x 32/1a - 400a (Powerlock available).

Full catering and drinks options with our preferred suppliers.

Sustainability

We are committed to preventing pollution and to complying with environmental legislation, regulations and considerations. We regularly evaluate the environmental impact of our activities, products and services and take action to continually improve our environmental performance.

Our expert team are on hand to talk through your production.
